

Quality You Feel. Performance You Expect.

Model numbers: #14032/3/9 (KDFE104DWH/SS/BL), #14072/3/9 (KDFE304DWH/SS/BL), #14082/3/9 (KDTE104DWH/SS/BL), #14122/3/6/9 (KDTE304DWH/SS/PA/BL), #14192/3/7/9 (KDTE404DWH/SS/SP/BL), #14203 (KDHE404DSS), #14292/3/6/9 (KDTE704DWH/SS/PA/BL), #14303 (KDHE704DSS)

The new KitchenAid® lineup delivers a premium dishwashing experience with superior craftsmanship, exceptional cleaning and quiet operation. New features include ProScrub® Trio and a SatinGlide® Max lower rack, which are available on select models. Be sure to mention the features below when introducing these dishwashers.

SUPERIOR CRAFTSMANSHIP

Premium Adjusters
This feature makes it easy to raise and lower the upper rack and allows more space for tall items in the lower rack.

SatinGlide Max Upper and Lower Racks (Industry First)
With 52 ball bearings in each rail, the SatinGlide® Max system allows racks to move in and out almost effortlessly, even when they're fully loaded.

DEMO TIP

Demonstrate the smooth glide difference by letting your members try the rack empty, then put something heavy in the rack and let them try again.

EXCEPTIONAL CLEANING

ProWash™ Cycle
The most advanced and versatile cycle, ProWash senses the load soils, soil amount and toughness of soils and adjusts the cycle, using only the amount of water and energy needed. This results in exceptionally clean dishes without wasting resources.

ProScrub Option
Forty targeted jets provide extra wash action for tough soils and stuck-on foods. This option also helps eliminate the need to soak and prescrub dishes.

ProScrub Trio Option (KitchenAid Exclusive)
The Trio option adds two concentrated shower head spray zones for intense cleaning power. With targeted wash action, these nozzles provide 50% more coverage than the ProScrub option.

DEMO TIP

Point out the jets for ProScrub and ProScrub Trio and show members the difference between the two.

KitchenAid®

QUIET OPERATION

KitchenAid dishwashers offer a level of quiet for everyone. With sound levels ranging from 46 to 39 dBA, all KitchenAid dishwashers operate at sound levels that are more quiet than everyday noises, like coffee brewing or the typical conversation.

For members who like to hear their dishwasher and know it's running, they will likely prefer dishwashers with a dBA of 45 to 46, like #14032/3/9, #14082/3/9, #14072/3/9 and #14122/3/6/9. For those who have their dishwasher in an open area and prefer to keep operational noises at a minimum, point them towards #14292/3/6/9 and #14303, the two quietest KitchenAid dishwashers that generate less noise than whispers in a library.

RED INDICATES A STEP-UP FEATURE.
